Our Review

Fantastic customer service!
I love CJDropshipping, it has some of the best shipping times and fantastic customer service. When I first started I didn't know so well how it all worked, but on CJDropshipping I got a personal agent assigned. Her name is Gina...

We've been using the app for a while now. So far everything is going well. I can recommend everyone to ask about agent Yeri. Then you're sure you'll be helped. She'll take a lot of work off your hands and make sure everything's on the right track.
